

Webinar ESAB

La ESAB ("*European Society of Applied Biocatalysis*", <https://esabweb.org/>), nos invita a participar en el próximo webinar titulado "*Synthesis planning and data management in biocatalysis*".

- Fecha: Jueves 22 de Febrero de 2021, a las 14:00 CET

Programa:

- 14:00 **Dörte Rother** (IBG-1: Biotechnology, Research Center Jülich, D)

Short introduction.

- 14:05 **William Finnigan** (Manchester Institute of Biotechnology, University of Manchester, GB)

RetroBioCat: computer-aided synthesis planning of biocatalytic cascades, and a database for synthetic biotransformations.

- 14:25 **Jürgen Pleiss** (Institute of Biochemistry and Technical Biochemistry, University of Stuttgart, D)

EnzymeML: F.A.I.R. data management in biocatalysis

- 14:45 **Stephan Malzacher** (IBG-1: Biotechnology, Research Center Jülich, D)

BioCatHub – an electronic lab notebook for biocatalysis according to the FAIR data principles

- 15:05 **Ulrike Wittig** (HITS gGmbH, Heidelberg Institute for Theoretical Studies, D)

Collecting, curating, interlinking and sharing data with SABIO-RK and FAIRDOME-SEEK
